New York Will Present His Name to the Convention.

Granger States Said to Be Coming Over to Him.

Blaine Still Looms: Up In the Background.

CHICAGO, June 18.--The New York delegation has been in secret session since noon Ex-Marshal Louis F. Payn, who has been present at the meeting, says that it has voted unanimously to present the name of Chauncey M. Depew to the convention as their choice for the Presidency.

Warner Miller will make the rominating speech and Gen. Knapp will second it. Mr. Depew was elected Chairman of the Delega tion Frank Hiscock member of the Commit tee ou Resolutions; George B. Sloane, member of Committee on Organization, and Congressman Weber, member of the Committee on Credentials.

It is now said that Dakota, Idaho, Minme sota and Wisconsin have fallen in line for Depew, and that other granger States may be won over. Michigan is now connetting with the New Yorkers.

THE OUTLOOK AT CHICAGO.

Depew Highly Envored Among the Favorite

PECIAL TO THE WORLD. CHICAGO, June 18. - Barring Mr. Blaine, who is still the choice of a majority of the delegates, Chauncey M. Depew has forged ahead of all competitors, save perhaps Senster Sherman, whose boom, however, is standstill.

Mr. Depew swoke this morning with schard day's work shead of ham. Until his arrival here it had been a query, to which the lack of apparent leadership in New York offered no answer, what Depew would do when he arrived. The question was as far as ever from being settled and Mr. Depew spent twenty-four hours asking ques tions. New York was undecided and the factions at odds. But last night the wholesattitude changed.

This was brought about after a conference of the chairmen of all the State delegations yesterday. They were asked how they felt towards Mr. Depew.

Iowa, Minnesota and Wisconsin favored him. Rebraska hesitated. Kansas and Michigan asked for time. The argument used with lukewarm delegates of Northwestorn and Western States wasthis .

Depew can carry three-doubtful States. New York gives nearly one-sixth of the total number of electoral votes necessary to elect Mr Depew we know is weak in the north west because of his railway connections Very well, then, give us a man of your choice who can carry the Empire State and we will vield."

"We can assure you New York with Depew. You can't assure us either New York, New Jersey or Connecticut with any of your candidates.

The majority of visitors had to give in to

NEW YORK! UNITES ON HIM.

It was figured that despite opposition in the Granger States, Dopew might be nominated if he could secure the solid vote of the New York delegation. So Tom Platt and Warner Miller buried the hatchet, shook hands and agreed to give Depew the solid support of the New York delegation.

Everybody is talking about this to-day Aside from the Blaine boom, which is being nursed doubly as a great shadow in the background, it is the feature of the hour. It is hoped by Mr. Depew's backers to overcome in a measure at least the opposition that has been shown to him in the Granger States. If this can be done, and it is the business Mr.

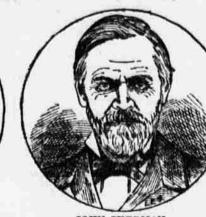

bis can be done, and it is the business Mr. Depew and his friends are attending to today, the situation may be altogether changed or Mr. Depew, whose candidacy was looked upon as a means of conserving Blaine sentiment until the proper time for using it, may, and probably will, become a central figure in the eyes of the convention.

It is almost certain now that he and Sheyman will be the fighting candidates. With the withdrawal of Boss Platt's support, whatever that amounted to, much of the prestige Alger's boom had been enjoying took flight, and this morning he is talked of he some as a Vice-Presidential possibility. His boom to

nevertheless, has been carefully and well managed as any, unless, perhaps, that of Harrison.

HARBISON'S FRIEND UPSETS THE GUESSERS. The plans of people who delight in guessing at the ticket received a setback by the published statement on the part of an Indiana leader that Gen. Harrison does not want the nomination for Vice-President, could not afford to take it and has no intention of perafford to take it and has no member of per-mitting his friends to make a combination with anybody looking to that nomination. This is a sad blow to the calculations of be-lievers in the flaine finality, whose delight it has been for the past three days to couple the names of Blaine and Harrison in their pre-dictions.

dictions.

Gresham's strength has received no special increase unless it be the arrival of Col. Bob Ingersoll, who comes, so he is quoted as saying, to hammer some sense into Steve Elkins's head in the interests of Judge Gresham. He proclaims Gresham as the most available candidate and defends his

Gresham. He proclaims Gresham as the most available candidate and defends his right to the title of protectionist.

Fenator Allison's friends are energetic in in his behalf and additional forces that continue to arrive from Iowa swell his boom. The Iowa headquarters are much visited, but there is no enthusiasm.

The Allison managers claim accessions from New York, New England and certain Southern States.

The Sonthern vote is claimed so largely by all the candidates that it is difficult to tell where the bulk of it really will be cast. Sherman has been accredited with most of it, but yesterday there crept in a decided Depew sentiment and the open announcement of his candidacy will probably win him a host of Southern votes.

The management of the cunctatory Blaine boom is giving vast trouble on account of the hurry certain Californians are in to vote for Blaine on the first ballot. Blaine managers see the folly of this, and there are those who in sincerity want Blaine inominated who think it a plan to destroy him by hurrying him into a candidacy at a time when he could have no strength from pledged delegates.

It is even darkly suspected, in view of the persons who urge his immediate nomination, that it is done with the Jdea of giving birth

It is even darkly suspected, in view of the persons who urge his immediate nomination, that it is done with the idea of giving birth to a Stanford boom. It was probably to circumvent such an arrangement that Elkins, Hale and Manlay, when they visited the Californians yesterday to urge that Blaine be not boomed so hard, suggested the nomination of Stanford on the call of California.

He, it was intended, should play the rôle that immediate nomination would give Mr. Blaine—that of ninepin. It is said this morning that this may be done, but the California Blaine men relax none of their effort to whoop up his name. They are foremost in a Blaine display that is being planned for tonight.

The friends of Sherman, Gresham, Alger, Allison and Harrison have become alarmed at the boom for Depew and are attacking it. The supporters of these Western candidates are insisting that Depey cannot carry the doubtful Western States, and that if he is nominated there will be danger ahead in Iowa, Michigan, Nebraska, Wisconsin and even in Illinois.

These attacks on the part of the shouters for the sons of the West are heard everywhere, but are not discouraging the friends of Depew. The delegates from the Southern States have a high esteem for Depew's ability and his Republicanism, and he will get many woles from Dixie's land if the Western people should let up in their opposition.

A ROW AMONG THE CALIFORNIANS. CHAUNCEY'S BOOM SCARES TREM.

A ROW AMONG THE CALIFORNIANS.

There was a big row in the Pacific coast del-brations this morning. Senator Jones, of Nevada, got them all together in the head-quarters of California at the Leland and attempted to throw a lasso over all their necks at once He made a lively speech, arguing that Blaine was out of the race and should not be mentioned, and the Pacific States should stand together for their own candidate, Stanford.

The Blaine men received this with yells of derision and there was a big hubbub. Jones had some support, but not much.

The meeting broke up in disorder. Another caucus will be held at noon, when final decision will be made on presenting Blaine's name. There's considerable opposition to it, A ROW AMONG THE CALIFORNIANS.

though it is likely to go through. Jones in working hard for Stanford.

The lowa people are noticeably sore this morning over Depew's candidacy. They make no bones of saving that they earnestly oppose it. They will recommend to Mr. Platt and the other leaders that it shall not be attempted. Col. Wilson, one of the Iowa delegates, said:

"Personally, Mr. Depew is no doubt a charming gentleman, but as a Presidential candidate we fear the results even in Iowa. We have had hard work to carry the State for several years, and with a reilroad man for a candidate we will have it much harder.

The railroad question is the burning issue in Iowa, and few Eastern people understand the intense bitterness with which all railroad interests are regarded. It amounts to a popular passion. If Depew is nominated we shall do our best, but we fear the results, and hope he will not be a candidate."

THEY THINE GRESHAM'S SUN MASN'T SET.

Judge Gresham's managers are jubilant over the visits of delegates from a number of Western States, who came making inquiries about Gresham's tariff notions. Said a Gresham leader: "It shows the growing interest in Gresham and the growing conviction that he is the most available man, Especially sre we delighted with the interest shown in him by California delegates.

"The trouble in the California delegation over the presentation of Blaine's name is more serious than it appears. The agreement upon Mr. Blaine's name by the Californians was merely a conventional utilitarian matter, anyway, and we know Gresham has strength in California which must develop when Californians are convinced, as we are, that he is all right on the tariff."

The Greshamites whisper of new votes which are to be thrown for Gresham as soon as the demands of certain favorite soms are satisfied, but they "t want to tell what these promises are.

John Sherman's guard had nothing new to cheer them at noon, but still reckoned on going into the Convention with over three hundred and forty votes. They take the arrival of Mahone as a propitious omen, and look for Sherman to gain strength with the time.

The National Committee have decided to THEY THINE GRESHAM'S SUN MASN'T SET.

The National Committee have decided to recommend John M. Thurston, of Nebraska, as temporary Chairman of the Convention. The vote stood—Thurston, 20: Estae, of California, 20. Jones, the Chairman, cast the deciding vote for Thurston.

THE PLATFORM CUT AND DRIED.

Ita Tariff Plank Will Express Congress McKinley's Extreme Views. (SPECIAL TO THE WORLD.)

Curcago, June 18 .- It is pretty well under stood what the platform will be. The tariff plank will be expressive of the extreme views of Congressman McKinley; there will be a vigorous protest against the disenfranchisement of the negroes of the South; a hearty indorsement of Gladstone and Parnell which is being looked after by Alexander Sullivan and Patrick Egan ; a declaration that the Re-

and Fatrick Egan; a decisation that the Re-publican party is the true and only exponent of civil-service reform, and that the preten-sions of the Democracy in this respect are hypocritical.

President Cleveland will be assailed for at-tempting to destroy the industries and debase the workingmen of the United States for the benefit of the British manufacturers and the benefit of the British manufacturers and the pauper labor of Europe, and will be accused of trying to usenty the constitutional powers of Congress by the use of the veto power. He will be charged with inconsistency and hypocrisy, and with unfriendliness to the veterans of the late war. His pension vetoes will farmish the text for a lurid plank.

An attempt will be made to get an expression on the temperance question in the platform, and the anti-saloon Republicans are here in full force for that purpose. The temperance people can easily be taken care of by daclaring that prohibition is a local issue and commending it to the discretion of

There will be some trouble, also, over the financial plank. Senator Stewart is here for

Gen. Husted approached an Evening World correspondent and whispered, "Depew certain. Just saw him. Delegates coming to him by the dozens to pledge their support. The West can't stop it. Chauncey will get there."

Joe Manley, Blaine's old lieutenant, says that Maine will not present the name of the Plumed Knight. "If," says Manley, "after fruitless ballots the impossibility of selecting any other candidate be demonstrated and the voters of the convention unanimously tender it to Mr. Blaine we will be in readiness to welcome such a result. We have studiously avoided any display that might compromise Mr. Blaine."

Her face was resigned, almost celestial in expression, and she spoke with the characteristic deliberation and largeness of tone of the female lecturer. She had come 'round, and was ready to express herself. She did so volubly and polysyllabically.

George Droxel, a Spiritualist, visited the priestess. He presented his compliments, a big bouquet of Jacqueminot roses and the opinion that her conviction was "rank persecution and a conspiracy against the truth."

To all of which madame bowed majestically and looked even more resigned.

The "General" came down later. He was erect as a general should be, and dignified as a man of his character could be.

The pair held a levee and Ancients Titus Merritt and John L. O'Sullivan, Prof. Van Horne and a couple of hollow-eyed women in ringlets and hollow voices condoled their idels.

There was a court-room full of people when Editha L. Dies Debar and Joseph H. Diss Debar were called to the bar by Clerk Weish, and Mr. Davis moved for judgment upon the defendants.

Madame was pale, even to the lips, and the "General" booked haggard and beaten. A motion of John D. Townsend for a new trial for both def-indants was denied, and then Ann O'Defia stood up as her name was called.

Madame mopped beads of sweat from her big brow and replied to the usual question: "Tleave it all to Your Honor."

Judge Gildersleeve said the jury had been toold that this must not be a religious trial. That the question of the truth of Spiritualism did not enter in.

"The jury found that you conspired to obtain Marsh's money by cheat and fraud," he went on. "This was aggravated. You hvad in unlawful intercourse as man and wife. In addition you added the offense of the denial of your own mother. A heinous offense. I can find nothing except the jury's recommendation in mitigation.

"The two months you have already been incarcerated shall be taken into consideration. The maximum would be one year and \$500 fine. As you have no money this would be very hard. I shall santence each of you to the penitentiary for six months."

Madame received her sentence with the same immovable expression and far-away look, but the General's aged kness knecked to the pen, he was supported thither by Officer Pete Seaman, and the spooks were hurried back to the Tombs.

Under Sheriff Sexton said the Diss Debars would be taken to Blackwell's Island on Wednesday.
